

Brain Play

START
Take your brain
on a hike!

What would it be like if clothing were magnetic?

Do you see more colors outdoors in the daytime or in the evening?

WHY?

Name some things that drip.

Nice to see you again, friend!

Aside from your pets, which animals do you see most often?

If a food truck came to your neighborhood, what would you want it to serve?

Name a food that gets covered with another food.

How does a unicyclist steer the unicycle?

Why do you think football goalposts have a crossbar that's high, instead of on the ground?

How do other people affect your emotions? Are there times when they can't?

HEE, HEE, HA, HA, HA! THE END.

Have you ever laughed so hard that tears came out of your eyes?

"This is really tricky to figure out!" said Raj. When have you felt that way?
