

MAKE FOOD ON THE FIRE

Have an adult supervise while you make these tasty treats.

CHEESY MELTS

Butter two slices of bread on one side. Place cheese between the unbuttered sides. Wrap the sandwich in three layers of foil and use metal tongs to place it on hot coals. Cook for three minutes, then flip it and cook for three minutes more. Let it cool before eating!

STUFFED S'MORES

Use a table knife to poke a slit in the top of a marshmallow. Put two chocolate chips into the slit. With the chocolate-chip side up, put the stuffed marshmallow on a stick and roast it over the fire. When it's browned, place it between two graham crackers.
