

Highlights

Tic Tac Row

Each of these skeletons has something in common with the other two skeletons in the same row—across, down, and diagonally. For example, in the top row across, each skeleton has velvet ropes around it. Can you tell what's alike in each row?

At a museum benefit, the head paleontologist told the patrons: "I have good news and bad news. The good news is that we have enough money to pay for our new dinosaur hall. The bad news is that it is still out there in your pockets."

Answer
 Top row: velvet ropes; Middle row: windows behind; Bottom row: greenery; Left column: horns; Center column: sharp teeth; Right column: four legs; Diagonal top left to bottom right: round display pedestal; Diagonal top right to bottom left: dinosaur nameplate
