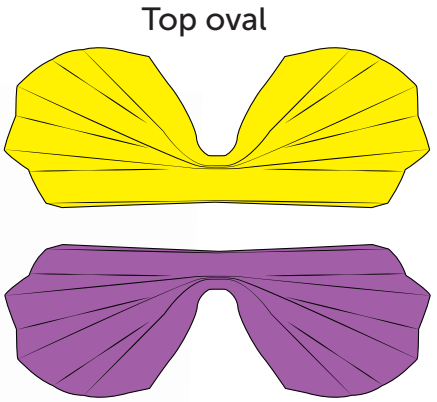
Colorful Butterflies

Make colorful creations using simple supplies. Hang them in your windows for your neighbors to see.

1. From **watercolor paper**, cut out two oval shapes.
2. Using **watercolors or acrylic paints and water**, decorate the ovals. Let them dry.
3. Accordion-fold the ovals. Pinch them together in the middle. Wrap a **chenille stick** around the center and twist it to form antennae and a body.
4. Add a **ribbon** hanger.



Why did the boy throw the butter out of the window?

He wanted to see the butterfly.

What are caterpillars afraid of?

Dog-erpillars
