## Welcome to Highlights Activity Bingo!

**Parents:** Print the themed bingo card and help your kids choose how they want to complete the challenge. We've included reading, puzzles, and creative activities for ages 2–12. As children complete the activities, they can cross off each box to make "BINGO."

In the bingo grid, the activities for the youngest readers appear along the top row. As you move down the rows, the activities increase in difficulty, with the bottom row being the most challenging. There's no age grading on any of the reproducible materials. This allows kids to find what feels comfortable and progress at their own rate. Kids of all ages will have fun and reinforce their reading skills with Highlights Activity Bingo!
