

## Show Time

Lena and 3 of her friends went to the multiplex movie theater.  
 Each saw a different movie and bought a different snack.  
 From the clues below, can you figure out what each person chose?

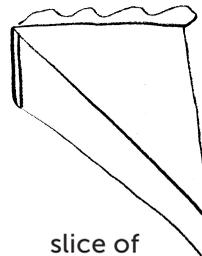

Use the chart to keep track of your answers.  
 Put an **X** in each box that can't be true and an **O** in boxes that match.

- All the movies started at the same time, and the science-fiction film was the shortest.
- The friend who saw the sci-fi movie ate licorice.
- Jack laughed so hard at his movie, he didn't even finish his taffy.
- Lena does not like drama or sweet snacks.
- Jasmine was the first friend back to the lobby after her movie was over.

# Whee!

Can you find these hidden objects? Once you solve the Hidden Pictures puzzle, use the object names to complete the Silly Fill-In Story.

slice of pie

ice-cream cone

artist's brush

horseshoe

sailboat

kite

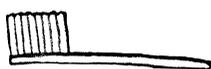

butterfly

muffin

needle

toothbrush

ring

nail

pencil

fork

sock

banana

## Whee!

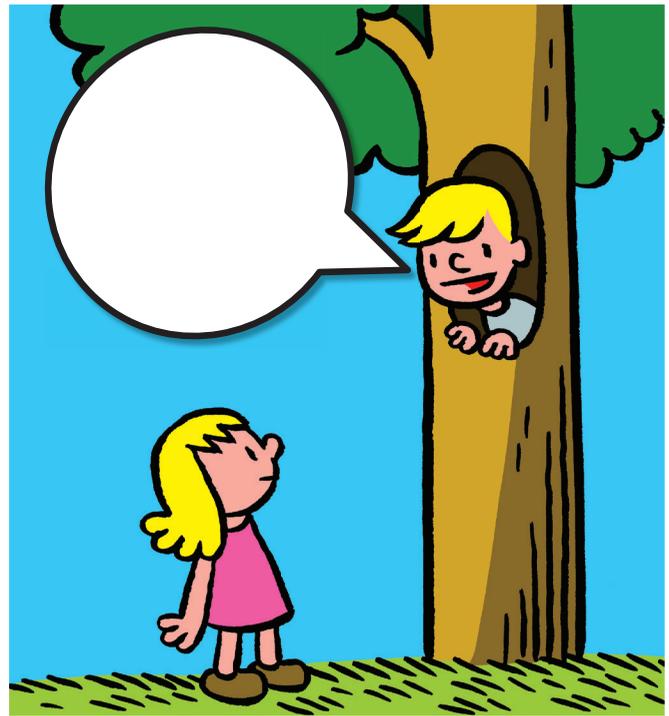

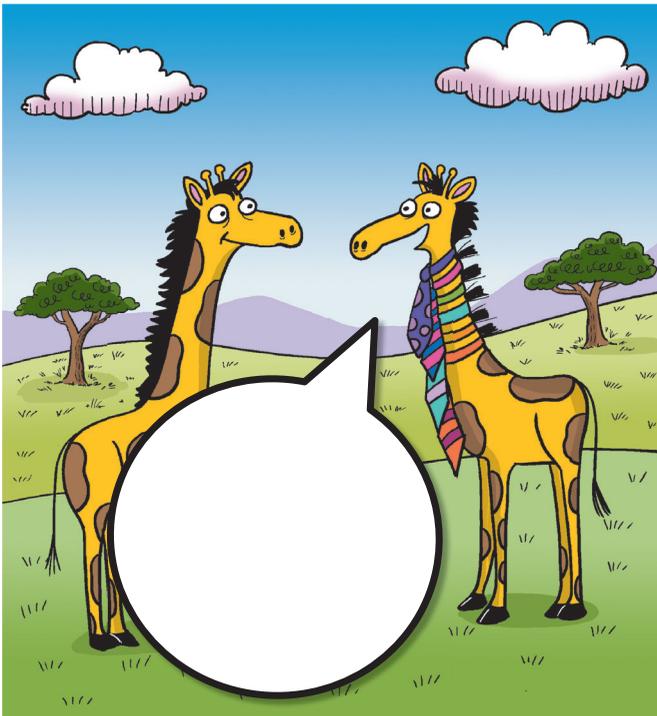

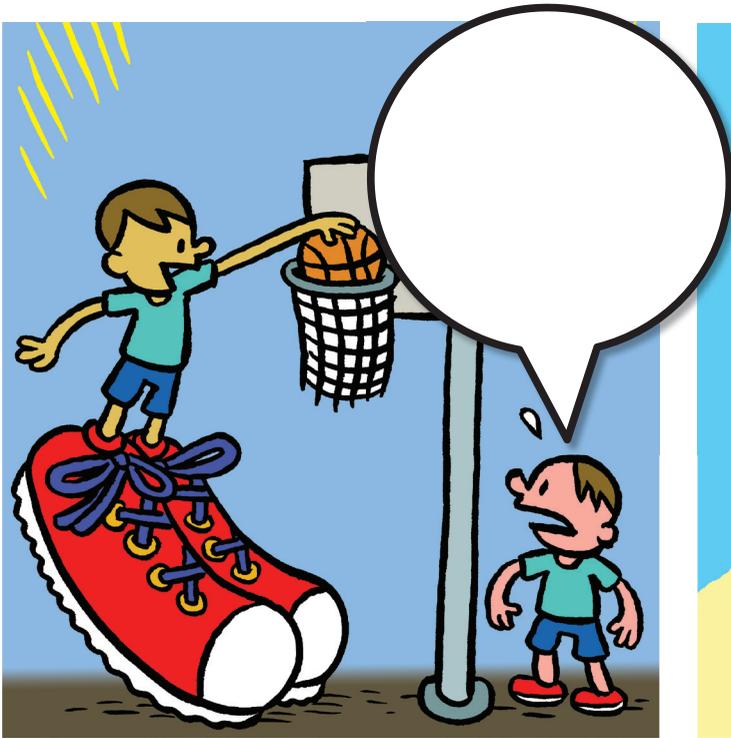

# A Hidden Pictures Silly Fill-In Story

Write the name of 12 of the objects you found in the "Whee!" puzzle in a blank space to complete the story. When all of the spaces are filled, read the silly story aloud.

The last day of school at \_\_\_\_\_ Academy is always extra fun. Our whole \_\_\_\_\_ closes early and we all head to the big amusement park. Our park has the best roller coasters around—there's the Flying \_\_\_\_\_, the \_\_\_\_\_ Plunge, and you won't catch me missing out on my favorite, the Twisting \_\_\_\_\_. If I had my way, I'd ride that one all day long. But my friends like to go to the \_\_\_\_\_ House. That's fun too, and a little scary. When you walk through it, a giant \_\_\_\_\_ jumps out at you, then you slide along a slimy \_\_\_\_\_ and land in a big sticky \_\_\_\_\_. When we need a break, we sit in the shade and lick a refreshing frozen \_\_\_\_\_. Sometimes a friendly \_\_\_\_\_ in costume walks by and tries to make us laugh. Then we head to the biggest \_\_\_\_\_ in the park and wait in a long line to ride it. By the end of the day, we're happy-tired and already looking forward to next year's visit.

# Help the Cartoonists

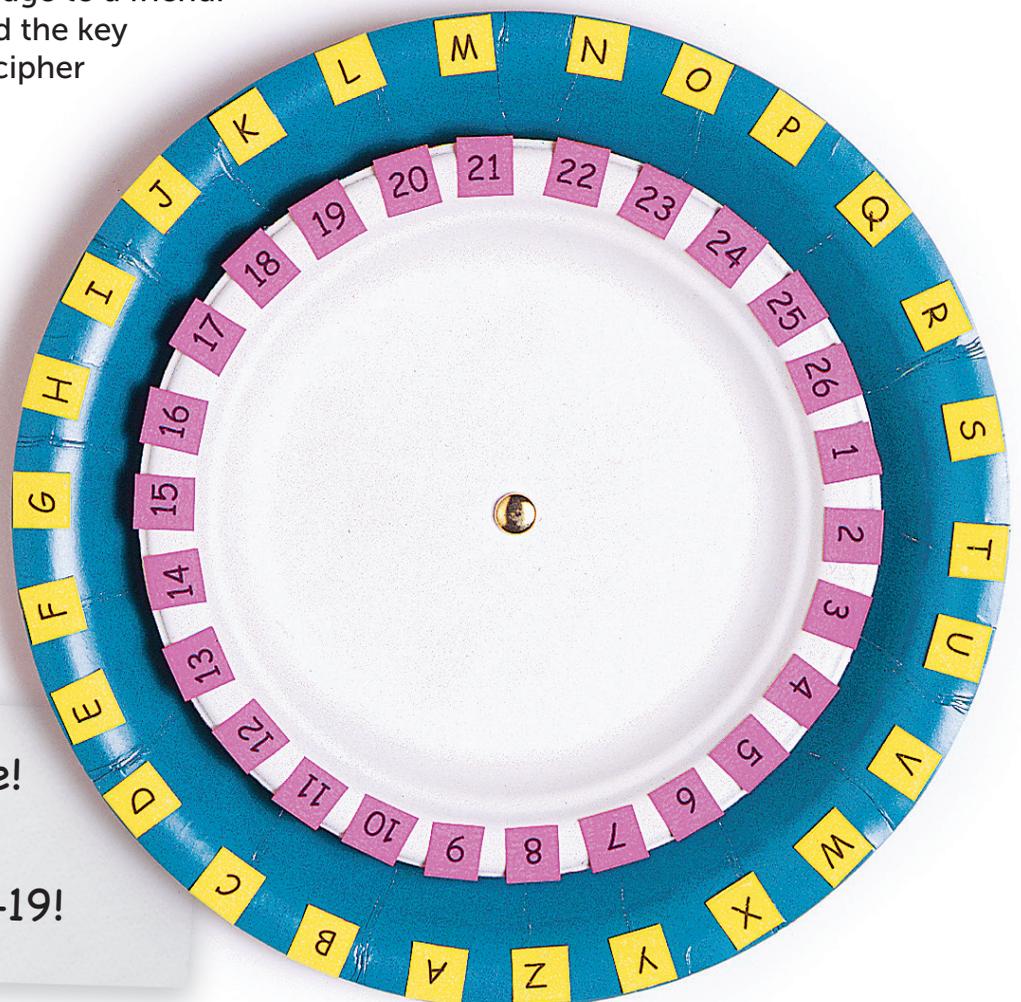

Calling all caption creators! Our cartoonists need your help.  
Write a clever caption for any or all of these cartoons.

## Secret Cipher Disk

1. With a **paper fastener**, attach a **9-inch paper plate** to a **6-inch paper plate**, as shown.
2. Cut 52 half-inch squares of **colored paper**.
3. Arrange 26 squares along the edge of the 6-inch plate, evenly spaced. **Glue** them in place.
4. Repeat step three with the 9-inch plate.
5. Write one letter of the alphabet on each square around the larger plate. Write the numbers 1 to 26 on the squares around the smaller plate.
6. To use the cipher disk, choose a key by lining up A with any number. Using numbers in place of letters, write a secret message. Send the cipher disk and the message to a friend. Be sure to tell your friend the key so that he or she can decipher the message!

The cipher disk was invented by Leon Battista Alberti in the 15th century. A version of the cipher disk was used by soldiers in the American Civil War.

Crack this code!

Key: A = 9

7-23-3 26-23-11-19!
