

Highlights

SUMMER LEARNING SCAVENGER HUNT

Find a leaf with insect holes.

Which insects do you think did the damage?

Look up at the night sky and count the stars you see.

Locate an intersection in town with

stop signs.

Spot a red car or blue truck.

Smell flowers, and then grass. Discuss what's different.

Feel 3 different textures of rock.

Listen to birds chirping; name or look up the birds you hear.

Find animal tracks. What animal could they belong to?

Walk the neighborhood to find a street address with the number

Plan a road trip. Count how many miles you'll travel.

Spot an animal hole.

Gather something **round,** **lumpy,** **fuzzy,** **sticky,** or **squishy.**

Locate and name 3 different types of trees.

Find a **Y**-shaped twig.

Spot

items on a nature walk—spider web, moss, tree, wildflowers, bug.

Make a sand castle.

Look through a magazine to find the letters in your name.

Find a log that is longer/taller than you.

Find opposites: something

big, **small;** **wet,** **dry.**

Dig for animals at the beach. Hermit crab? Clam?

Find 5 flowers of different colors. Name them.

Collect rainwater and chart it by the week.

Listen to the waves roll in. Talk about how it makes you feel.

Watch an ant moving something.
